

KFIRE-LITE

A high power LED rechargeable flood light unit ideal for fire and rescue services. Compact to store and setup in under a minute.

Using advanced optical lens design the KFIRE-LITE optimises all available light to maximise the usable light on the required surface. This also gives the benefit of very low light spill (light pollution) and gives the best performing product on the market.

22,000 lumens light output

Stable to 25mph winds. No extra tie downs or ground pegs required

Unique lensing optimised for all surfaces

Safe silent operation. No trip hazards. No trap hazards. No noise. No maintenance

Quick & simple deployment by one person in under 1 minute per light

Multiple kit options for all budgets and requirements

Compact to store and transport. Only 9.6kg per kit. Easy to fit a full set in a car boot

Supplied with waterproof carry bags as standard

KFIRE-LITE

Replaceable lithium battery stored within waterproof IP65 rated light head.
No trailing cables.

Lightweight and compact to store.
Supplied with carry bags. 9.64Kg for tripod and light head.

Optimised optical lensing for fire & rescue.
